

THE MORNING APPEAL.

The Official Paper of Ormsby County
SATURDAY, MARCH 23

It Pays

The San Francisco Examiner has the following:

The value of newspaper advertising is difficult to estimate and is often problematical, but it was demonstrated yesterday in Judge Coffey's court in a remarkable manner. Property belonging to the Johnson estate was recently sold. Mr. Fred D. Denkin, attorney for the infant heirs, was not satisfied with the result of the sale, and, having obtained permission from the Court to secure a better bid if he could, adopted the unusual course of advertising for higher bids. His advertisement in the Examiner cost him \$52.50. At the appointed time bidders assembled in Judge Coffey's court and raised the price of one piece of property to \$12,500. Three other pieces of property received increased bids of 10%. Judge Coffey intimated that this was an occasion when advertising paid so well that they could keep it up another week.

In this State, when an estate is being settled, the administrator very seldom advertises for bids. The property is sold off quietly to his nearest friends, and at all most any price, in order, as the administrator naively puts it, "to save advertising expenses."

Several attempts have been made to compel administrators to advertise public sales, but the opponents of the measure merely rise in the Legislature and say, "It's a printers' steal," and the measure is killed. So the administrator continues to conduct the business in the dark, and the heirs of the estate go to the poor house.

The Vaughan Case Reversed.

The Supreme Court has reversed the case of Alpheus Vaughan sentenced to be hung at Austin for the killing of William Litster.

The Supreme Court held that the lower Court had erred in instructing the jury that the use of dangerous weapons under provocation is always evidence of malice aforethought. The Supreme Court held that the intention to kill does not necessarily indicate malice as the killing may have been justifiable. The trouble occurred over the right of two families to use a certain gate as a free passage way between fields. The lower Court held that the passing of the defendant through the gate was a misdemeanor. While this was correct as a matter of law, it tended to create a prejudice in the minds of the jury regarding the defendant, as he was being tried for murder and not for the passing through the gate.

On these two points the case was reversed and a new trial granted.

The Commercial Bank of Moscow, Idaho, has closed its doors. The reason given is the stringency in the money market. The bank owes the people \$15,000, the county \$12,000, the State \$17,000 and other banks \$23,000. The people owe the bank \$127,000.

THREE VETOES.

TWO MINING BILLS AND THE SEMI-ANNUAL TAX BILL.

The Governor has sent three bills to the Secretary of State without his approval as follows:

STATE OF NEVADA,
EXECUTIVE DEPARTMENT.

CARSON, MARCH 22, 1895.

TO THE HONORABLE THE SECRETARY OF STATE OF NEVADA: SIR:—

I have the honor to herewith file in your office, to be laid by you before the Legislature of Nevada at its next session, Assembly Bill 95, entitled "An act for the location, recording and working of mines and mineral deposits and for other purposes," without my approval.

My objections are as follows:

This proposed bill is an attempt to make new and strange requirements for the locating, perfecting and establishing valid "lode" and "placer" mining claims, which is inconsistent and subversive to the mining laws of the United States now in force; and the rights of miners of each mining district to make regulations not in conflict with United States mining laws governing the location, manner of recording, amount of work necessary, and the manner in which it is to be performed in order to hold possession of mineral claims. Also, the manner of locating "placer" claims as defined in this bill would be in direct contravention and in violation of the laws of the United States, governing the same by substituting as proposed in this bill, the word "acres" instead of "feet."

The provisions of the whole bill is intended (to my mind) and is embodied in the last portion of the title "and for other purposes" which means the promotion and the causing of endless litigation (if approved) over questions which have already been so well established in our Courts, and are generally well understood by miners and prospectors; and any interference with them would in my judgment lead to confusion and trouble. I therefore withhold my approval.

Very Respectfully Submitted,

JOHN E. JONES, GOVERNOR

EXECUTIVE DEPARTMENT, March 20th.

To the Hon. Secretary of State, Sir: I have the honor to herewith file in your office to be laid by you before the Legislature of Nevada at the next session, "Assembly Bill 162" entitled "An act to encourage the Mining Industries of the State of Nevada" without my approval.

My objections are as follows: The bill as framed is ambiguous, unintelligible and uncertain, on account of its ungrammatical construction, and by reason of these defects, I would consider that (if approved) it would be ineffective and void. For these reasons I withhold my approval thereof.

Very Respectfully Submitted,

JOHN E. JONES, Governor.

The third veto is as follows: I have the honor herewith to file in your office, to be laid before the next session of the legislature, Assembly Bill 67, entitled, "An act allowing the payment of taxes in equal semi-annual installments, and regulating the collection of taxes on personal property." Without my approval.

My objections to the bills are as follows:

First. It is in my mind impracticable in its provisions, and does not and will not meet with any favor from the average taxpayer of this State, and if tested in the courts, would be declared inoperative and void.

Second. It would be in conflict with the revenue laws now in force in many respects, and would generally retard the collection of taxes by reason of said conflict.

Third. Its provisions are obvious, and to my mind will result in no practical benefit to the general taxpayer, although possibly it might be of advantage to those of the wealthier class, of whom, unfortunately at present, Nevada holds but few within her borders, and as good legislation is intended to be "the greatest good to the greatest number" and believing as I do, I withhold my approval of said bill.

Very respectfully,
JOHN E. JONES.

WHY WE LOSE.

ORMSBY ALWAYS KNOCKS ITSELF TO PIECES.

There is a long letter in yesterday's News from which we make the following extract:

Poor old Ormsby is always anxious to pass around the political representative plums. We seldom have the same representative a second time, hence our previous wants are forgotten and new ones lost. I would suggest that when we get a good man in harness and he fills the bill to re-elect him—of course the disinterested ones will say he runs the county—I say let him run it, if he renders the necessary benefit.

There is a lot of good sound sense in the above, and it is an echo of what the APPEAL told the voters in the campaign. We had Logan and Folsom before the voters and explained over and over again that they were trained hands at legislation and would be in line with the party in power in the Legislature. But the Republican combine, oblivious of everything but downing the Silver party in Ormsby, put their money and influence in the scale against the Silver ticket and beat all they could of it. The majority of our citizens were fools enough to be led by the nose, and now they are repenting of their folly when it is too late and their own party organs are admitting the fact. With a silver delegation in the Legislature, we could have won the slice of Washoe county, and had a District Fair. As it is we lose both.

A trade was attempted with the Ormsby delegation in the House by which we could have won the strip of Washoe, and had the District Fair, but they could not make the trade because they were Republicans, and it was against their party interests to do so, hence we lost everything.

We also lost the University through the Republicans years ago. Coffin in the Assembly and Parker in the Senate, voted with Reno, and the V. & T. R. R. company was solid for Washoe. Ormsby will always be at the tail of the procession if she allows her interests to be handled in this way.

Death of H. A. Cagwin.

H. A. Cagwin who died so quietly and unexpectedly at his residence on Thursday evening, will be buried today from his late residence. He lived for many years in this city and leaves three sons, George, Frank and Ham Cagwin. He was eighty-four years of age and was favorably known to every man, woman and child in this city.

The funeral will take place at 2 o'clock.

If Cleveland had recognized the Simon pure wing of the Nevada Democracy instead of the Silver party segment, so much scandals as now sullies the reputation of the Carson Mint would have not existed.—Tribune.

How do you know this? You do not even know at the present where the scandal will be located. You don't know at present whether the thief is a Republican, Silver man or Democrat. A thief has no politics. He is simply a thief and gets in to whatever party he thinks will give him the best chance to steal.

Hattie Frost Wednesday secured a verdict for \$15,000 damages in the United State Court at Helena, Mont., against the Oregon Short Line and Utah Northern Railroad for the death of her husband, an engineer, who was killed in a collision several years ago. The accident was caused by the operator failing to deliver an order to the engineer.

The British Government has replied to Newfoundland's appeal for relief that "self-governing colonies should not look to the Imperial Government for relief." But Newfoundland is not a self governing colony so far as its fisheries are concerned. It has to abide by treaties the Imperial Government makes with other nations.

The story in the Examiner that a Miss Lampman was ever married to James Fair Jr., and committed suicide because of troubles with him, is not credited here.
